

Live Automated Roulette

Comtrade Gaming enables the customer to offer the most popular table games to online casino players, round-the-clock without a croupier. [Live Automated Roulette](#) has been designed to use a fully-automatic, air-powered roulette wheel. This brings many advantages for the operator, such as: 24/7 usability, low maintenance, and almost 100% reduction in operating errors and player disputes.

Live roulette also brings players together from land-based and online casino environments to the same automatic roulette table. No detail has been overlooked. The online player simply clicks on a chip of the desired denomination, and then on the specific area of the roulette table to place a bet.

The Roulette Player console makes it easy for players to place the NEIGHBOUR BETS like Tier, Orphelin, and Voisins de zero. The “REPEAT” button allows the player to place the same bets as in the preceding round. With a click on the “CLEAR LAST” button, the player can easily clear the last, placed bet and with a click on “CLEAR ALL,” clear all bets.

CHOOSE YOUR VIEW

The player can choose between a rich 3D environment and a classical 2D view. Both views put the player in the heart of the action.

HIGHLIGHTS

- Selectable view
- Selectable avatar
- Chat
- Auto-play
- History
- Marketing
- Configuration

BE WHO YOU WANT TO BE

The Live Roulette rich 3D environment allows players to be themselves or anyone they wish.

COMTRADE GAMING AS YOUR GAME DEVELOPMENT PARTNER

- ◊ Game development
- ◊ HTML5 and Flash expertise
- ◊ Own HTML5 and Flash networks
- ◊ Game conversions
- ◊ Online platform
- ◊ End to end testing

START THE CONVERSATION

Players can chat with other players through the chat box.

AUTO-PLAY

The auto play feature enables players to automatically play a selected number of consecutive games without having to interact with the game. A player is able to stop the auto-play function regardless of how many auto-play gambles they initially chose or how many remain.

HISTORY

Many roulette players appreciate the ability to view the results of previous rounds in an effort to make a better bet. The last 14 numbers are listed on the right side of the player console under the "History" button. By clicking the "History" button, the player can see his own detailed gaming history.

MARKETING

The Roulette Player console can display news, maintenance, and marketing announcements in a scroll or pop-up window.

CONFIGURABLE FEATURES

Comtrade Gaming's live gaming system provides the live casino operator numerous configuration possibilities for chips and bet limits. The live casino operator can tailor live roulette tables according to policies and jurisdictional demands. For example, the live casino operator can enable or disable the halving even chances bet functionality or define the automatic disconnection of viewing players. There are also numerous other configuration possibilities built in to the Live Gaming system to configure the Live Automated Roulette.

SPECIAL FEATURES

- Online players see a live stream from a trusted, land-based casino through two streaming cameras
- A croupier isn't required to run the table for land-based and online play
- Players can send chat messages to each other through the chat box
- Player can choose between two graphical views
- Convenient buttons like "Re-bet," "Clear last" and "Clear All" make bet placement easy
- The player can control the video quality and live sounds
- Self-exclusion option for players
- Latest news and marketing announcements can be displayed in a scroll window or pop-up window
- Numerous configuration possibilities
- Based on the Comtrade Gaming Remote Gaming Server
