

Live Casino Solutions

In the past, when online gaming was limited to RNG games, the player often wondered whether their result was fair. Today, trust plays a key role. Players expect a more realistic, authentic, and personalized live gaming experience. At Comtrade Gaming, we believe that trust is achieved by using a live HD stream from well-known land-based casinos or studios.

BLURRING THE DIVIDE BETWEEN LAND-BASED AND ONLINE PLAY

Licensed by the UK Gambling Commission, our [Live Casino system](#) brings together Roulette and Blackjack played in a traditional land-based casino and the online world. We have designed and integrated a front- and back-end solution to meet the broader demands of our customers who are continuously looking to offer the best in live gaming products. Enhancing the role of croupier and dealer, our system is set to revolutionize the industry by bringing players in land-based and online casino environments together at the same time. The game play from the land-based casino at the Roulette or Blackjack table is broadcast live to online players who then actively participate in the game.

HIGHLIGHTS

- Highest quality live online games:
 - Live roulette
 - Live blackjack
- Trust is the key:
 - Live video and audio from trusted casino
 - Players know what they see and what is happening
 - Bringing players in a land based casino together at the same table
- Interactive:
 - Chat with players, dealers and supervisors
 - Numerous configuration possibilities
- Low operation costs
- Licensed by UK Gambling Commission

REALISTIC, AUTHENTIC, AND PERSONALIZED PLAYER EXPERIENCE

Comtrade Gaming Live Casino system provides compelling game play and a graphic user interface that is combined with the authenticity of a land-based casino. Players also get to experience the interactive and fast-paced Roulette and Blackjack games with top of the line, integrated audio and video streaming. The players can also chat to each other or with the dealers and supervisors in a real-time environment and through an avatar, can personalize their appearance on the live roulette table. On the live Blackjack tables, players also have the option to switch between two video streams with the first showing a wide

view of the dealer and the table, whilst the second shows a detailed view of the cards. The graphical user interface also provides a digital representation of the blackjack cards.

LIVE CASINO SETUP OPTIONS

We can set up the live casino system for you:

Casino: You can maximize players' trust by delivering venue's own staff, dressed in familiar attire, and personally known by land-based casino players, with the live casino system. Further customizations to increasing brand awareness and player loyalty by placing your logo in the game, on the table, chips, and cards are also possible. The uniqueness of our solution in your land-based casino will appeal to casino operators as they only need one single dealer or croupier to run the combined tables. This means that operational fees are kept to a minimum, whilst the live casino system also uses already installed casino roulette and blackjack tables.

Studio: Studio brings flexibility to develop an operator's very own VIP Live Casino offering. Dedicated tables and environments allow even greater branding and customizations.

Resort: Your players will have the possibility to use mobile devices to play live games while they are in other areas of the resort (in their room, bar, etc.).

MOBILE LIVE CASINO

COMTRADE GAMING AS YOUR GAME DEVELOPMENT PARTNER

- ◊ Game development
- ◊ HTML5 and Flash expertise
- ◊ Own HTML5 and Flash networks
- ◊ Game conversions
- ◊ Online platform
- ◊ End to end testing

Our Mobile Live Casino solution addresses the players who like to play their favourite games wherever and whenever they choose.

We are focused on the development of mobile games through HTML5, which means games can be played across a variety of devices including smartphones and tablets. This in turn offers the player a great audio and visual experience.

The player experience is optimized through a user-friendly interface that utilizes cutting-edge mobile technology. The games have a number of attributes that help make them a hit among both novice and experienced players.

- Existing land based casino Roulette and Blackjack tables can be used
- Single table for land-based and online players
- Players can play the same games everywhere
- Numerous configuration possibilities
- Quicker time to market
- Licensed by the UK Gambling Commission

REFERENCE

Patrick Duffy, owner of Palace Casino in Great Yarmouth and palaceslive.com:

"Comtrade Gaming have manufactured an astonishing product and have far surpassed my expectations. We worked marvellously together and I feel both of us are happy with this world beating technology of unsurpassed quality, which is just simply better than anything out there. Most importantly, it is just as good as playing in the club in person."

Peter Nolan, Managing Director Genting Alderney:

"It is very important for us to have a high quality Live Casino solution which is designed for our VIP customers. Comtrade Gaming were able to deliver game software that replicates the high standards of Genting's land based clubs. Our online players expect to receive the same exceptional service that they get in our Mayfair casinos."
